

Aim: How can we make recursive drawings?

depth = 0

depth = 1

depth = 2

When depth = 0, the curve is just a straight line.

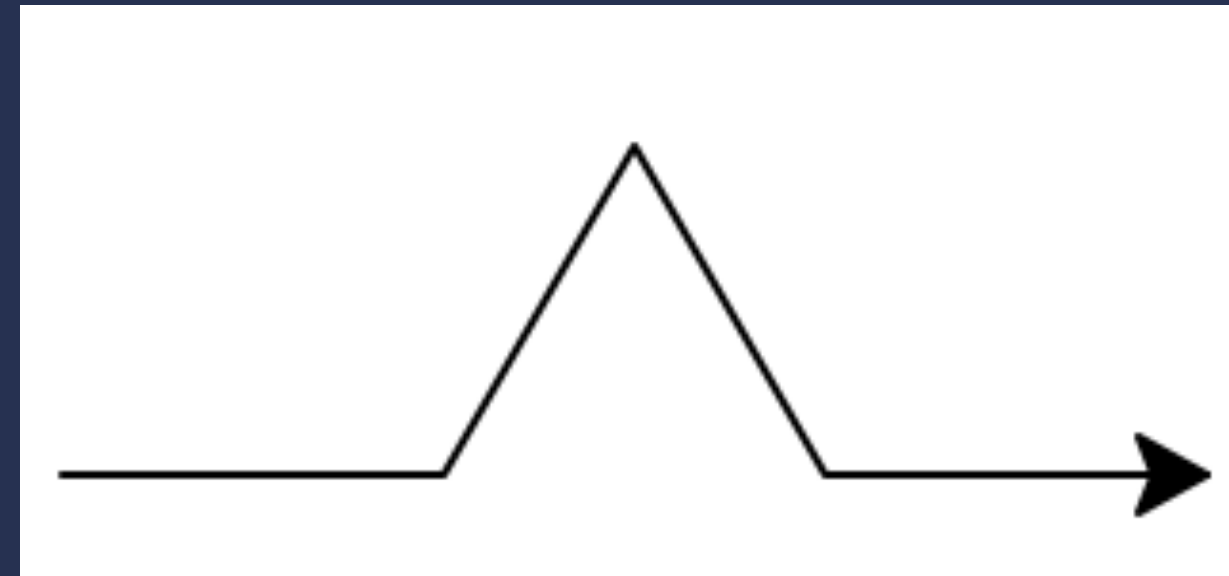

Look at the curve when depth = 1

It's made of 4 curves of depth = 0

Look at the curve when depth = 2

It's made of 4 curves where depth = 1 (the blue circled regions)

Aim: How can we make recursive drawings?

depth = 1
