

Aim: How can we use the python turtle library?

`turtle`

`turtle.Turtle()`

Create and return a turtle object!

Turtle objects have many familiar methods like:

`fd, rt, lt, bk, pd, pu, setx, sety,`

Example turtle usage:

```
donatello = turtle.Turtle()  
donatello.pu()  
donatello.setx(100)  
donatello.pd()  
donatello.lt(73)  
donatello.fd(200)
```
